- A. int -> ()
- B. char -> ()
- C. float -> ()

9. Fill in the black and Complete the following code.

- find the lowest age among defferent ages

```
int ages[] = {20, 22, 18, 35, 48, 26, 87, 70};
float avg, sum = 0;
int i;
```

```
// Get the length of the array
int length = _____1_____;
```

```
// Loop through the elements of the array
for (_____2_____) {
    sum += ages[i];
}
```

```
// Calculate the average by dividing the sum by the
length
avg = _____3_____;
```

```
// Print the average
printf(_____4_____);
```

- 1. _____
- 2. _____
- 3. _____
- 4. _____

10. Complete the following code

- print even number from 1 to 100;
- using for loop
- % write next page
